2020-21 AP Course Audit: What You'll Need to Do

If you're teaching an AP Computer Science Principles course in 2020-21, you'll need to submit two items:

- A subject-specific AP Course Audit form
- Documentation showing your understanding of course scope—choose 1 of 4 options:
  - adopt a sample syllabus
  - adopt the AP unit guides
  - claim identical to a colleague's approved syllabus
  - submit your own course syllabus for review (For help creating your syllabus, sign into your AP Course Audit account and click on the Resource section.)

Note: you'll need to submit both of these items, even if your course was previously authorized.

Once authorized, you'll receive:

- Access to AP Classroom in July 2020
- Inclusion in the AP Course Ledger published in November 2020
- Access to online score reports in July 2021
